WMO NAf Chapter – Immediate Goals

- Foster collaboration
- Membership Drive
- Youth Recruitment

Looking Outward. Let's **Connect.**

Strategic Thrusts – **Healthcare**

- Affordable, accessible and quality healthcare
- Collaboration with Memon Medical Association (Apex?)
- Partner with Ministries of Health (Govt)
- Memon Health Referral Network
- Hub and Spoke Approach to setting up Medical Centres and Clinics for underprivileged

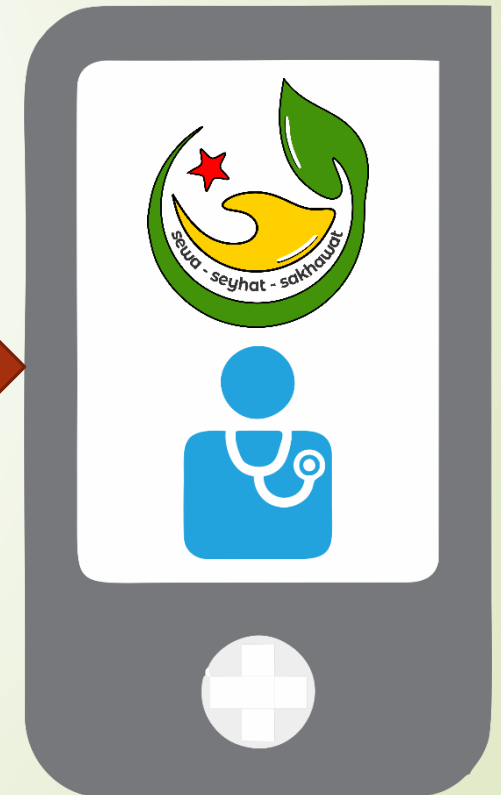

MEMON MEDICAL ASSOCIATION

Serving Humanity through Healthcare

Can we use **Memon Connect** to connect our **healthcare professionals** on a single global platform?

MEMON MEDICAL ASSOCIATION
Serving Humanity through Healthcare

A Regional Education Network?

What is possible?

Student Exchange | Quality & Benchmarking | Memon Talent

**Schools, Technical & Vocational Learning Centres,
Technology & Innovation Hubs**

Youth Engagement

- A compelling need to engage youth
- Create meaningful and gainful business and employment opportunities
- Scholarship programmes for academic and talented achievers.
- The **Global Youth Wing** is doing wonders and we need to look for ways to plug into that as soon as possible.
- Sports, technology and innovation events.
- Mentoring and business entrepreneurship through training and networking.

The **Challenges** are **Real**.

- Families still below the poverty line need to be uplifted through economic empowerment projects and boosting the welfare efforts of their Jamats.
- The underprivileged members of the society in the region, mostly the rural village areas continue to struggle with the need for clean water, food, basic education and shelter. It is our calling.

The '**GLOBALIZED**' MEMMON
is **LARGER** than
the sum of our
individual communities.

The **Price & Promise** of being Memon

Is the title *Memon* a given **by birth**, or do we earn the title *Memon* for what it's really **worth**?

THANK YOU ...

We seek your blessings
and support.

Osman Varwani, Interim VP
North Africa Chapter
