Organization**

— (NIC)

Ehsan Haji Amin Gadawala.

Vice President,

North India Chapter

From The Desk Of Vice President (WMO-NIC)

WORLD MEMON ORGANIZATION - NORTH INDIA CHAPTER (WMO-NIC) was incorporated in the year 2014 and registered under section 8 of the Companies Act, 2013. It has been working with Charitable Objectives and is a not for profit organization with the ultimate aim of uplifting the underprivileged section of the Memon Community by providing financial aid for education, housing, medical and other social activities. The Organization is working with selfless dedication for the welfare and well-being of the Community. In addition, WMO-NIC is the biggest parental organization representing the entire Memon Community from North India to the international level and having its membership exposure across North India.

As we all agree that Food, Clothing and Shelter are the basic requirements of a human being. However, these basic needs are not easily fulfilled. Many people stay in cramped houses with joint families and little space. It was observed that major part of people's earnings goes in paying rent and thus they have little money left for other expenses. Considering Housing as the most demanding and yet an unaffordable need of the community, the marginalized approached WMO-North India chapter to help them fulfil this need.

World Memon Organization - North India Chapter aims in helping these underprivileged families fulfil their dream of having a roof over their heads and a safe environment for the families to live in

Regional Secretary - General Review

I have a dream that all future generations are educated and self-reliant. The power to mould the future will be in the hands of the next generation. It is up to us to live up to the legacy that was left for us, and to leave behind that is worthy of our children.

Our legacy should be an educated heart and mind. I have a dream that all my brothers and sisters have a roof over their head. A simple, decent shelter is a basic human right and a primary need for all. The key dimensions of a modest home are a roof and four walls where one is essentially kept safe and dry but for the less fortunate and underprivileged it's much more. It is their treasure chest. A vital, starting point from where they begin their long and arduous journey to break the shackles of poverty. To own a home helps they travel that road with their heads held high. It lights up their faces and their lives.

I HAVE A DREAM THAT ONE DAY MY BRETHREN WILL RISE UP AND LIVE OUT THE TRUE MEANING OF OUR CREED: TO UNITE, UPHOLD AND UPLIFT.

You can't eat with two hands. You have to eat with one hand and give with the other. I implore my brothers and sisters to start by doing what's necessary; then do what's possible; and soon, together we will all be doing the impossible. Have faith in Allah SWT, believe in yourself and dare to dream. I dream that all Memon's will be transformed from Zakat receivers to Zakat donors. The same hands that are out stretched to receive, will soon turn over and give. That my brothers will be our finest hour and we can truly take the next step to EMPOWER MANKIND.

WMO NIC Going hits a century!

In the cricketing realm, the very appellation of Kohli resonates with a run-making machine, a player who is the very epitome of success and is renowned for piling tons after tons; but it dawns as an amusing and bemusing fact that the social workers from the same part of the world INDIA 🇮🇳 are not far behind, if not at par with the great cricketing icon - for they have recorded a century, literally, in conducting and hosting events in galore!

Being at the helm of this Herculean feat is the charismatic, charming and competitive Team of WMO-NIC , who with incessant and indispensable aid has achieved this unprecedented glory.

Increase in WMO NIC Membership from Sept 2017- Oct 2018

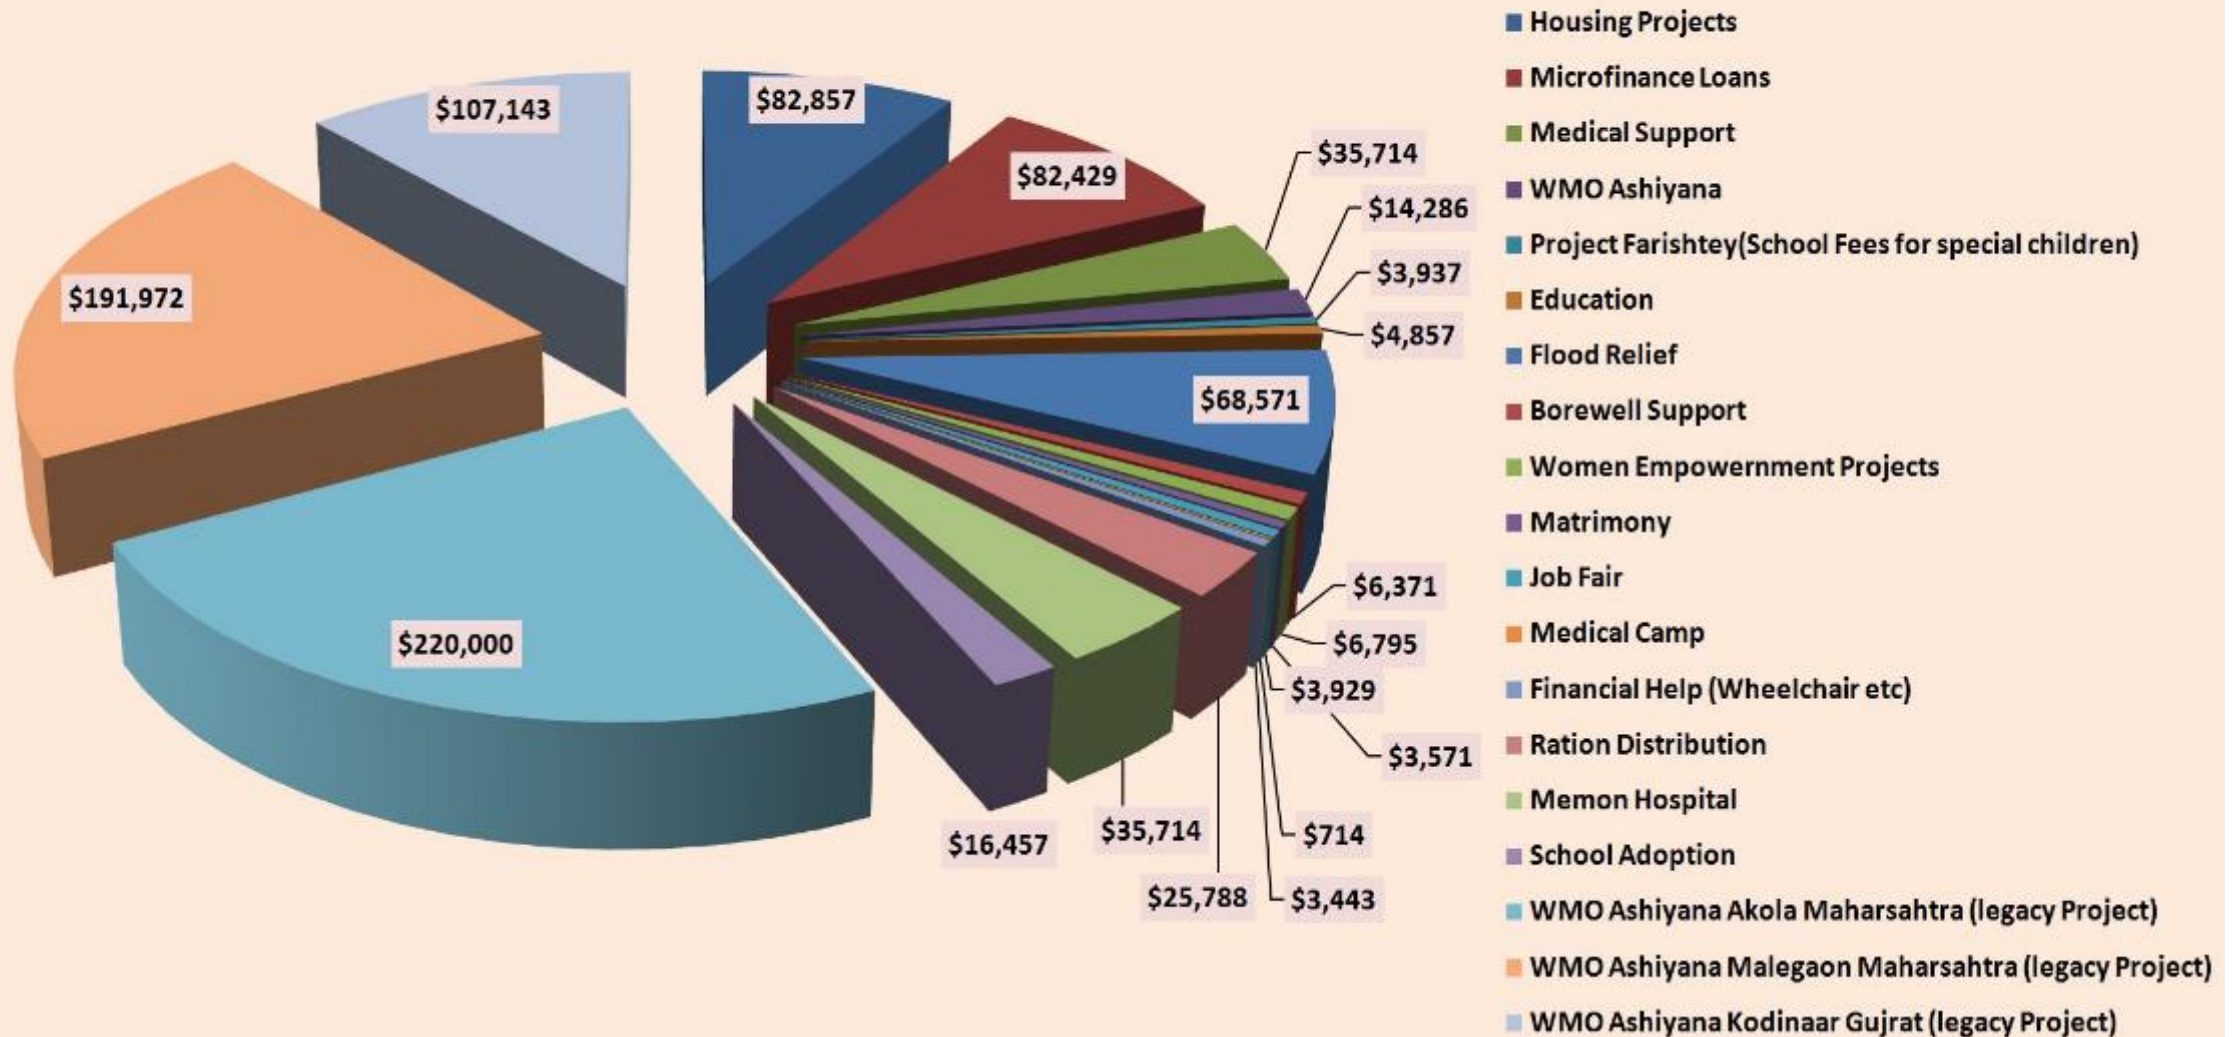

In the wake of the umpteen projects the WMO NIC set-up and initiated, it was in the offing and on the cards that the team might be nascent, but it had the potential, prowess and passion to surpass the achievements of the past. This culminated into hordes and hordes of people joining hands with the team, making it a juggernaut.

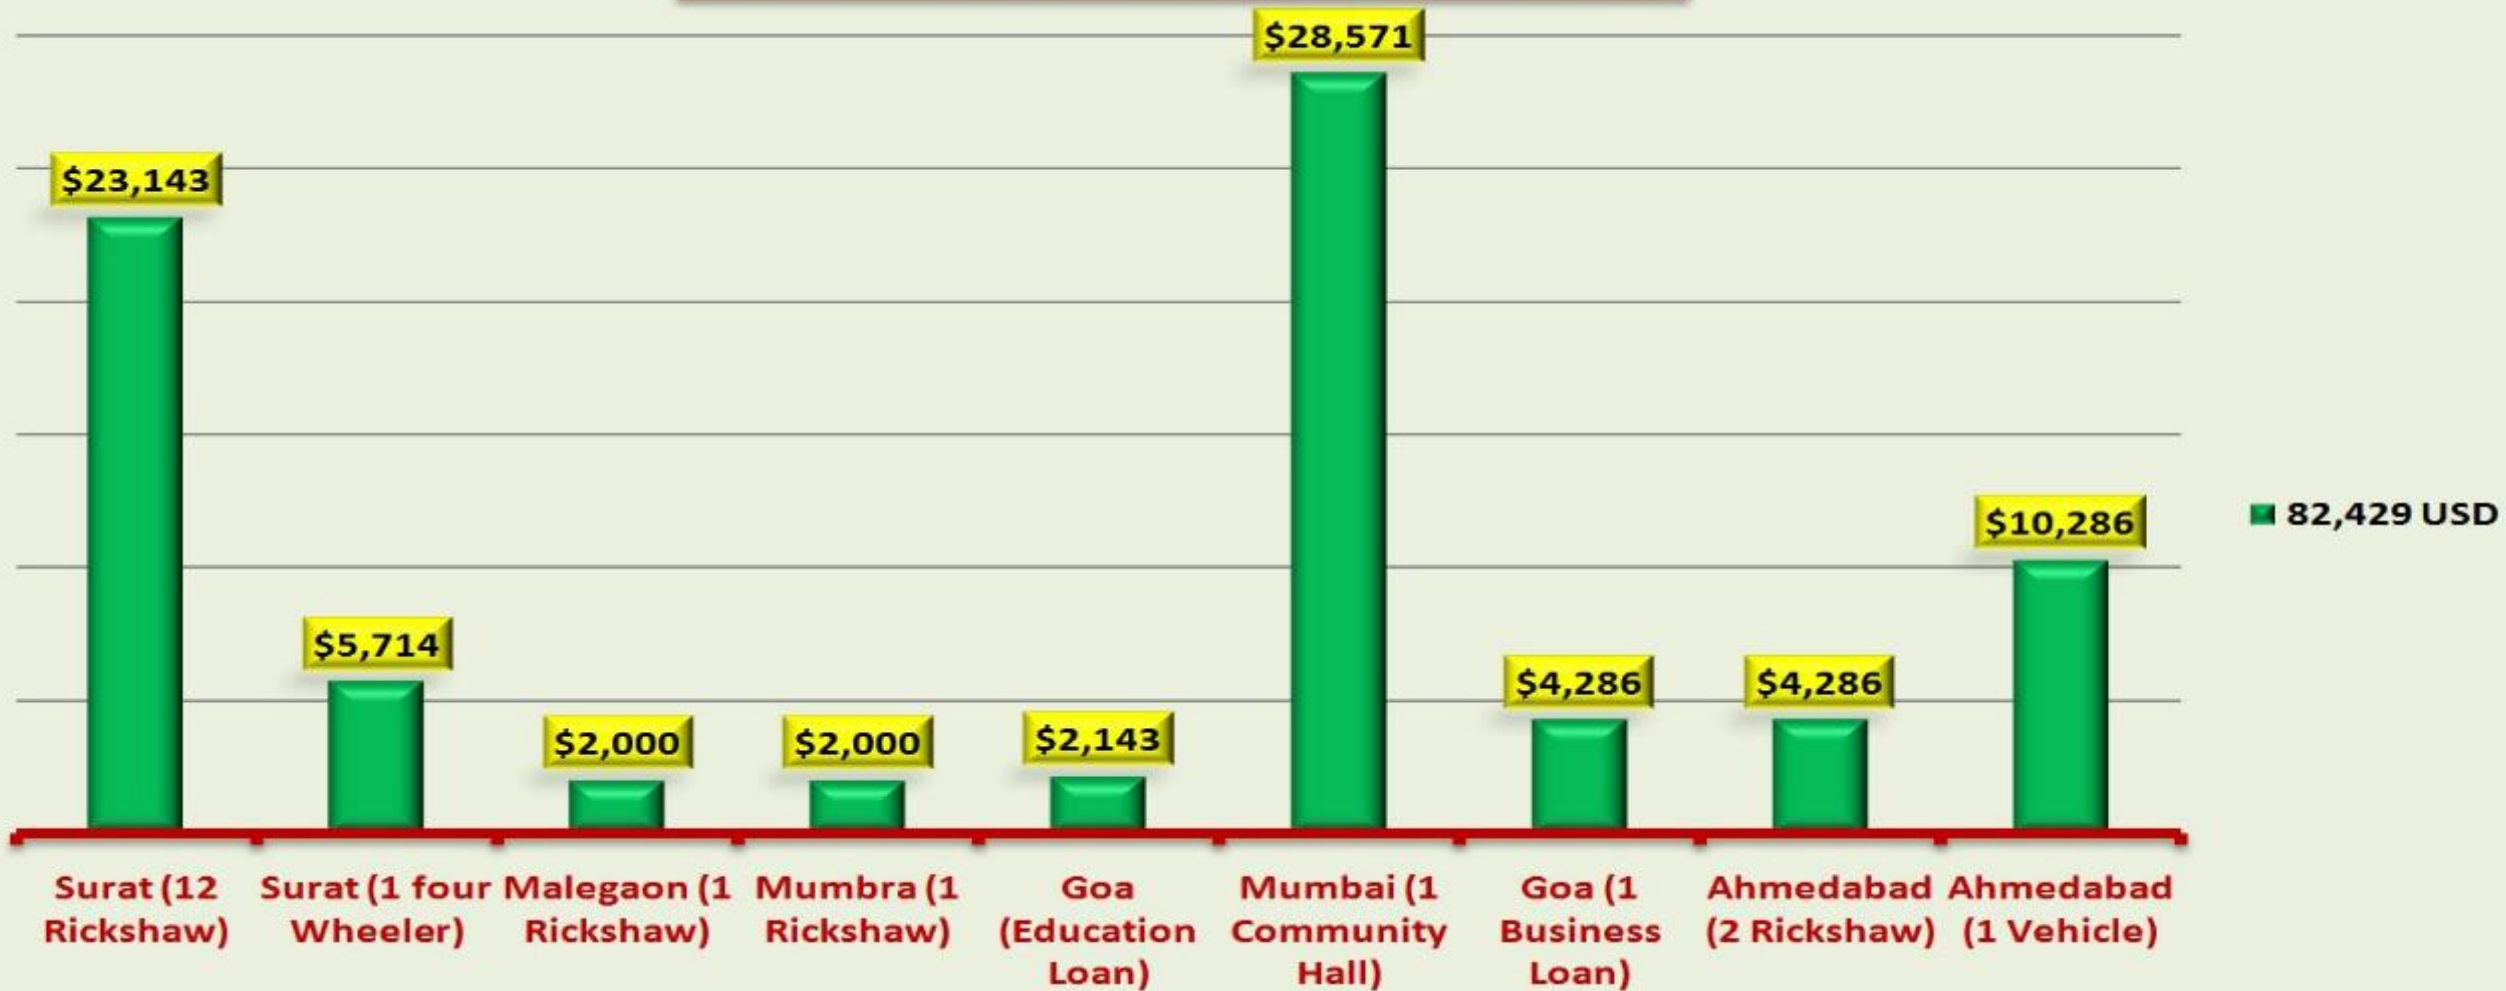

Trustees and patrons alike, consented their unconditional support, be it moral, physical or fiscal.

A tree is known by its fruits, and the Elm the WMO NIC has garnered and grown speaks volume of the shelter it has provided to its people. Witnessing these massive strides in the way of charity, social service, welfare and magnanimity, memon community in north India have come forward without any duress to be a part of such a noble, devout and compassionate team and the membership of WMO NIC is on an exponential rise.

WMO North India Chapter Projects of \$914,550

- Three wheeler loans (Auto Rickshaw, Tempo for transportation business)

WMO NIC Housing Aid

WMO NIC Housing Scheme....

The capitalist tide that has avalanched the world in its snowball has made human life a tragedy worse than ever before. It has rendered humanity homeless; a primal necessity that cannot be overlooked.

Influenced by these mishaps, the WMO NIC has risen to the occasion whenever the clarion call of time has demanded and has filled shoes meant for others to wear.

In a recent campaign to provide the downtrodden and the underprivileged with the basic survival ingredient, the WMO NIC has launched housing scheme in various parts of India

Commencing last year, the programme was kicked-off in all major and populous cities, including Ahmedabad, Surat, Dhoraji and Kodinar.

Neither pain nor expense was cared for while introducing the stupendous initiative an amount of more than 82000 US dollars was spent on housing projects.

The Messenger (salallaahu 'alaihi wassallam) said: "There are two blessings that many of the people lose out on, good health and free time." Prevention of illnesses by maintaining good health through diet is tremendous means provided by the Creator, Allah.

"Charity extinguishes the sins like water extinguishes a fire." (Ibn Majah)

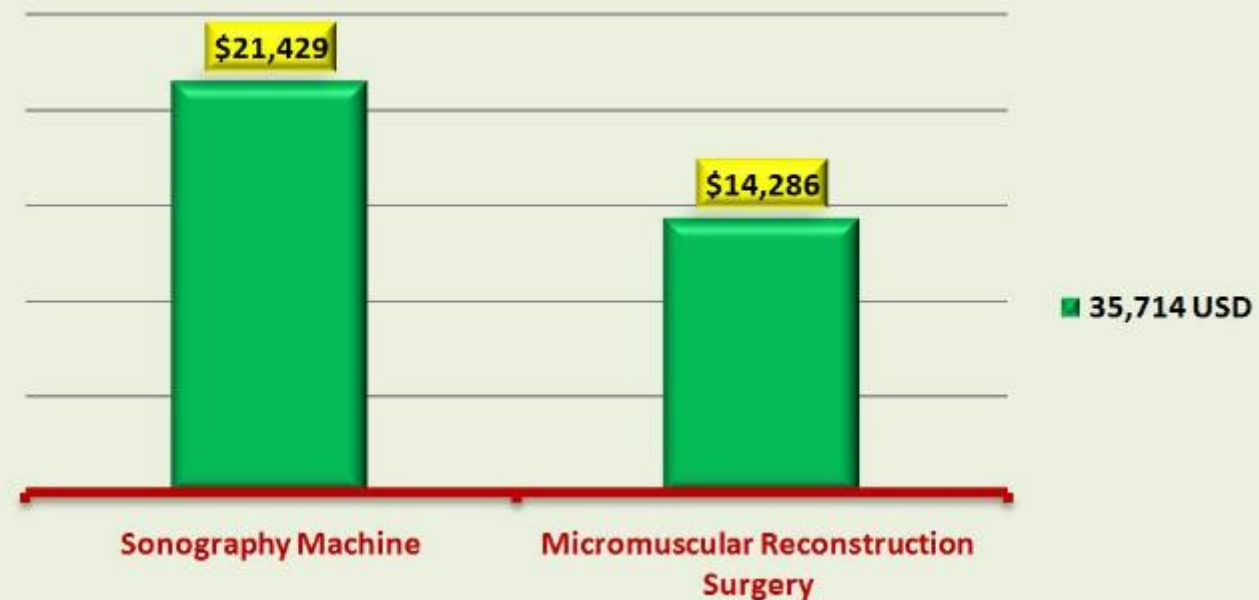

One of kindest gesture again portrayed by **Mr. Ehsan Gadawala (President of WMO -North India Chapter)** Humanity is not just said.. But it is something which is felt, and executed.

The same was done for Medical help in Dhoraji-Gujarat-India. A Village suffering from Sonography reports so That we donate machine to memon hospital so that whole community can used without any charges. Also WMO-NIC was helped in the medical treatment and medicines.

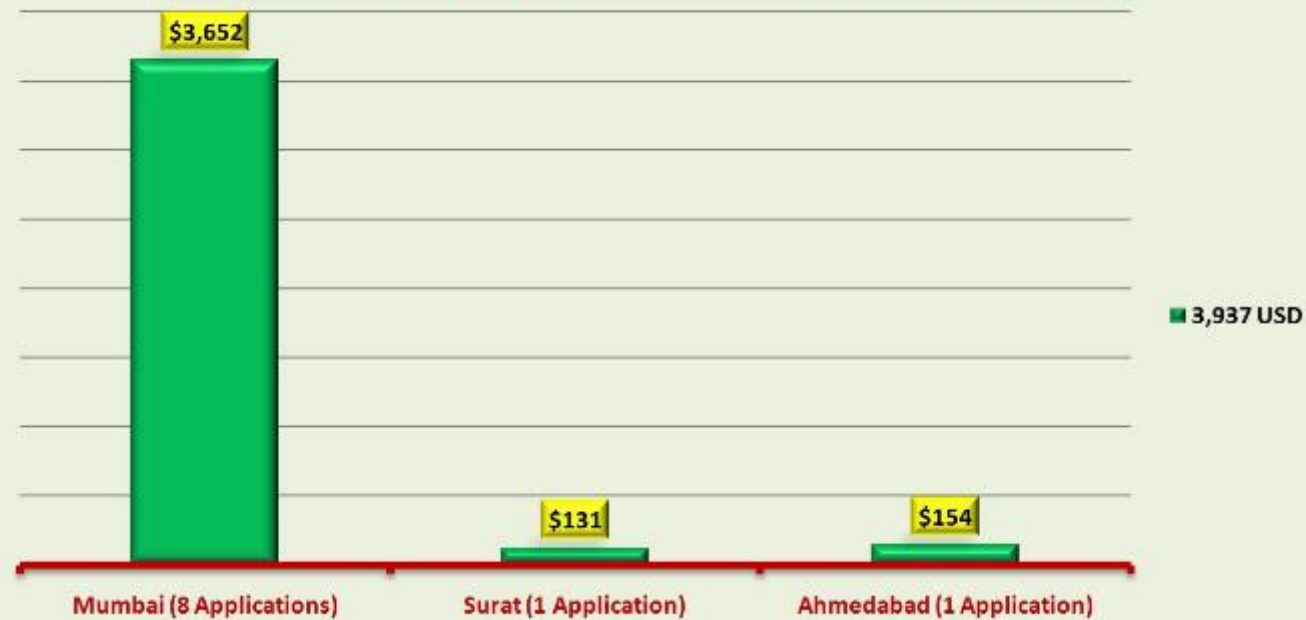

Alhamdulillah May Allah grant health wealth prosperity..

And except our good deeds for the mankind.

WMO NIC Medical Aid

Project Farishtey (School fees for special Children)

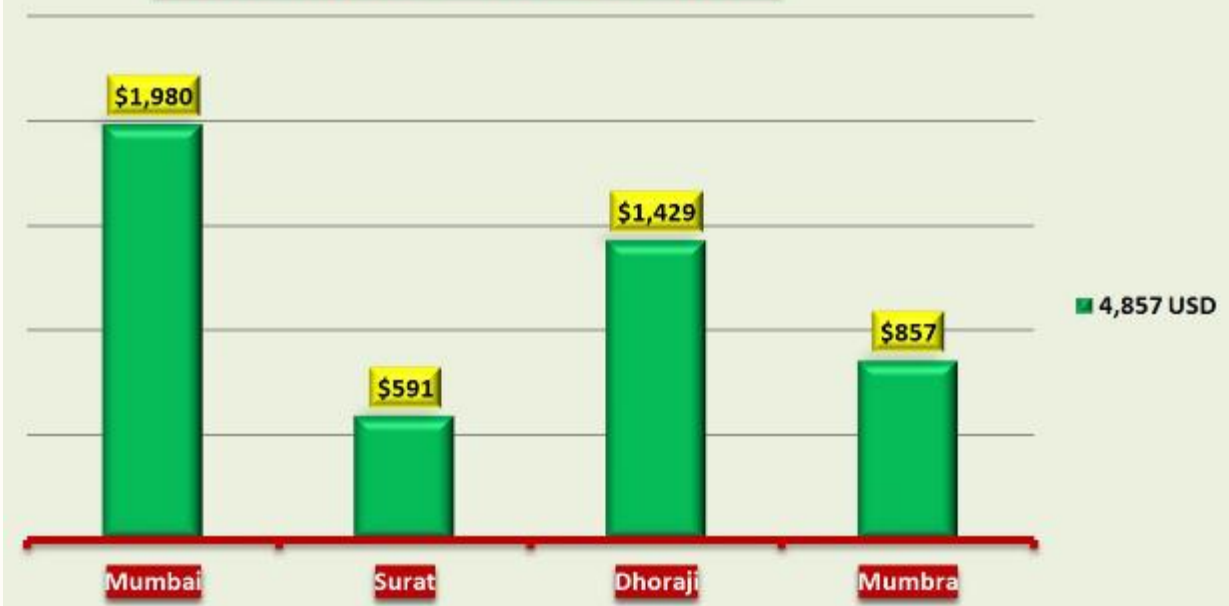

Farishtey, is the NICs special Education Programme started by Ladies wing, which was commenced with the intention of providing education to children with special needs. NIC continues this project by supporting such children of the Memon Community. This project supports the following categories; Significantly sub average intellectual functioning: an IQ of approximately 70 or below on an individually administered IQ test (for infants, a clinical judgment of significantly sub average intellectual functioning). Mumbai based mentally challenged and Autism Memon Community deserving Children who wish to join any special school or are studying in any special schools other than above may also contact for financial assistance towards their school fees. Will also support to continue studies in other schools besides the 2 identified schools

Education, and a quality one for that matter, has been known to rudder many adrift vessels which would have tossed aimlessly and helplessly in the tempest of vague vision and false ambition.

WMO NIC has given prime interest and laid importance towards providing top-notch education. Scholarships was given out by WMO NIC for various education fund including professional category in which a dentist education was funded by the organization.

Though a steady supply of scholarships and stipends are rolled-out to deserving candidates from other WMO chapters too, WMO NIC is different from its predecessors primarily because not only did they give scholarships to deserving students, they also formed liaison Umeed foundation, who have been in this business for many glorious years to provide scholarship with transparency to deserving candidates.

WMO-NIC Micro Finance

In order to keep the wolf of starvation and poverty off the door, the WMO-NIC took a leaf out of this maxim and chalked-out a plan cantering around micro-economics. Under the umbrella, North India Chapter set-out to provide financial assistance not per se as monetary aid, instead it assessed their skillset, experience, interest, age and market-trend and catered devices to many a individual.

Since September 2017, as Ehsan Gadawala became the new face of the WMO North Indian Chapter, and assumed his telling charge, he along with the help from his associates, only had one aim on their radar: to empower the ordinary man, so that he does not only provide for his own family, but also contributes in he overall economic system..

It was a master-stroke, a move of sheer genius; and since then the Chapter has not looked back. across the India they have launched and disbursed various easily manageable loan-schemes under micro-finance, like Rickshaws, Cab and Luggage tempo.

WMO-NIC Micro Finance

EDUCATION LOANS

The campaign has not only restored self-belief in all its beneficiaries, but it has also instilled a sense of dignity, honour and passion among them. And it does not require a clairvoyant to predict that the takers of today will be the donors of tomorrow!! **WMO NIC** did not only made a significant stride towards eradicating rank penury, it also enabled people to be self-sustainable and self-sufficient.

MISSION ROHINGYA

As we rounded up our team at the clinic, a young 5 year old came running in, carrying her little brother in her tiny arms. Her brother was about a year old but looked like he was still a 6 month old baby. He had a rash on his head, was severely malnourished and dehydrated. We inquired about her family, she said that her parents were killed. She was her brother's sole caregiver and caretaker. We were astounded. At such an innocent age, having to endure so much pain. We gave him treatment and she disappeared into the darkness of the camp...

WMO NIC Saturday Meetups

Success is not the result of simultaneous combustion, one must set himself on fire, so observed someone. The WMO, persistently, perseveringly and passionately, has been holding meetings on Saturdays after Saturdays, to ensure that a strict follow-up, smooth implementation and to iron-out the gaps.

Where most people lounge and languish on the much-sought weekend, the WMO NIC sacrifices and overlooks the mundane comforts and ensures the meeting takes place every week regardless of the season and the hour. The assembly enlarges upon a whole gamut of matters and operations; ranging from housing projects to education and from scholarship to alms and charity.

The WMO NIC has revolutionized the very concept of social work and welfare via their incessant hard work, exemplary team-work and selfless devotion.

And the brainwave has already been a phenomenal success, which can be gauged from the 5 marriages success stories that had had happened in this short span of time

While attending to such a social need, the social, ethical, spiritual and moral onus and culpability of people in-charge only gets compounded. They ladies render all care, craft and meticulousness possible to ensure that the profile, confidentiality and sensitivity of people trusting them with their need and interest is kept intact and a private matter.

Project Pyaas

Allah the most high said: *And we have made from water every living thing. Will they not then believe?* [Al-Anbiya 40].

It consists of hydrogen and oxygen-H₂O.

It's the most essential factor to health; in fact it's more than two thirds of our body.

Our brain is 95% water, blood is 82% and our lungs are 90% water. Without water we would die. The Prophet Muhammad (ﷺ) gave etiquettes to how we should drink and use water. This advice was taken from a classical work titled,

Boring Of Water And Installation Of Moter For Boring At Maharashtra in Month Of May By Chairperson Of WMO-NIC Shabana Darvesh Because of Dehydration of water.

The community at large is often unaware of the potential of speciallyabled children's. Although the specially abled children's are supported for the studies in the special school only after the assessment by WMO NIC ladies runs through a process and the fees are provided to educate this children's and make their future bright so that they can earn their own bread to fulfill their daily needs and become well sufficient All the speciallyabled children's are admit in a special school according to their IQ level test and certification is done by team of special psychologist doctors These school has a proper psychologist special educator teachers to handle this children's accordingly to their IQ level and the vocational courses are prepared accordingly to teach them and exam are held semester wise and they are certified and exams are taken to provide them results.

Food Packet Drive By Ladies Wing Of WMO-NIC

The WMO Ladies Wing North India Chapter, under the able leadership of Chairperson Mrs Shabana Darvesh has done extensive humanitarian work in Mumbai(India).

Their latest endeavour was the distribution of ration bags filled with essential food items to Widow & Divorcees & Senior Citizen.

May Allah Swt accept our ibadah, supplications and efforts during the holy month of Ramadan.

Mrs **Raziya Chashmawala** has dedicated her entire life to the selfless cause of Serving Humanity. She is a special woman. At the ripe age of 66,

in the blazing hot month of May, without consuming a drop of water or a grain of food, holding steadfastly to her annual ritual of religiously fasting through out the three holy months of Rajab, Sha'baan and Ramadan;

she often summons her indefatigable reserves of energy to relentlessly pursue her endless humanitarian endeavours. On a sweltering Wednesday afternoon, **Raziya Chashmawala** was in the Butcher's Market of Kurla, a suburb of Mumbai which is home to a considerable Muslim population struggling to make ends meet. The predominant butcher community are facing excessive hardships since the Government has passed a decree banning the slaughter of cows. It has rendered many jobless and with each passing day, they sink deeper into debt and poverty.....

Ummeed Foundation

(Already collected Rs. 60 Lakhs)
School for Physically Challenged Children

Ummeed foundation is located in the bustling suburb of Mumbra, around 40 kms from Mumbai, India. Mumbra is densely populated with members of the Muslim community, a majority of whom live in abject poverty. Although the foundation consists of a small apartment with tiny classrooms, it remains the only beacon of hope for hundreds of underprivileged Muslim families.

Ummeed not only serves as a school but also a sanctuary for children with special needs. “Special needs” is an umbrella underneath which staggering array of diagnoses can be placed.

Children with special needs may have mild learning disabilities or profound cognitive impairment; food allergies or terminal illness; developmental delays that catch up quickly or remain entrenched; occasional panic attacks or Serious psychiatric problems.

The World Memon Organization stands firm with Ummeed in their resolute efforts to support the children with special needs. If we can bring a smile on the faces of these little angels, if we can play a small role in making their lives a bit better, if we can provide them with a brighter future, if we can care for them, enough to help them learn, grow and live their lives to the fullest; then we can proudly say that we have made a **DIFFERENCE**.

Noorie Dargah cancer hospital visit

Where ignorance is usually referred to as a bliss, in certain cases, a slight lapse or oversight could culminate into dire consequences. The WMO NIC has always believed in pragmatic knowledge, and for the very reason, a highly erudite and concerned team of WMO international delegates namely Mr Ashraf Sattar and Mr Haroon Karim along with WMO NIC Team of Mr Ehsan Gadawala and Mr Aftab Badshah paid a visit to a cancer care center in India.

The idea leading to this compassionate and caring expedition, in addition to attending to the sick, was to gather as much information on this serious ailment. An ounce of prevention is better than a pound of cure, so the WMO NIC has always believed, therefore the intention of the visit was to make Memon community specially Memon youth aware of this disease and to take necessary actions once the symptoms are diagnosed. The purposeful trip apprised the representatives of the preemptive measures and general care that ought to be taken to ensure a healthy and happy life.

WMO-NIC Project UMMED

Where youth is the very future, teachers are its architect. The *Umeed* *Foundation* recognizing and realizing the significance of teachers, arranged an all-important teacher's day on 7th Sept 2018 to honor and commemorate their services to the society and community. Distinguished WMO NIC dignitaries added a new moon to the extravaganza, it was a contribution of sheer pleasure, pride and privilege for the WMO North India chapter to have been called upon for such an extraordinary and overwhelming assembly.

Mr. Marco Hendrick, in addition to giving his valuable time to the event, was so much moved and inspired by the efforts of the Umeed Foundation and the WMO-NIC alike, that he decided to donate his *Winning* *prize-money* worth 51000 INR to Umeed foundation via WMO NIC that he had collected after winning the 390km cycling race of Rotherham Fund Raiser

Uplifting KERALA

SERVING MANKIND

salute the women of Kerala. Here was this middle-aged lady, standing in the middle of her broken down home. One of the walls had crumbled, the roof had collapsed, there wasn't a single household item on the empty floor, not even a paltry stove to make food as everything had been swept away in the floods, yet she requested for a sewing machine. She wanted to resume making clothes in a damp corner of her home so that she could earn enough to educate her children, rebuild her life and home." states Raziya Chashmawala (Deputy Chairman of the WMO North India Chapter Ladies Wing), one of the members of the visiting WMO team to Kerala.
