WORLD MEMON ORGANISATION

REAL ESTATE ACADEMY OF LEARNING

WMO has taken into consideration the aspirations of the community to uplift the youth and those in need of new sources of sustainable income generation.

WMO has identified the real estate sector as a target for one of the entrepreneurship initiatives, considering that the South African Real Estate Market is worth R5 Trillion. It Contributes towards 15% of the country's GDP. It is a challenging and highly competitive business. However, exciting growth opportunities remain accessible to those who are prepared to seize the moment.

Therefore, for those in the Memon community that are curious on realty or already keen to pursue realty as a career, WMO has appointed Choprop to provide an introduction to the real estate industry by hosting an **Intensive 2 day introductory Course** which will tremendously benefit those that attend. Although the course is available to the public at a R2,750.00, WMO will subsidise the cost of the intensive 2 day course for WMO members who register and complete the attendance.

For those eager to pursue within the industry and be trained in real estate agency, they will be able to apply for the internship and mentorship program. There is a screening and interview process to evaluate candidate's suitability for the industry and a final selection of candidates which will be allowed to enrol into the full time **Internship Program**.

The internship program spans over 12 months providing an intensive on the job training including continuous workshops and enrolment is at a cost of costs R70,000.00. Candidates that would like to enrol for the internship after completing the introductory program and been success in the interview can enrol immediately

WMO and CHOPROP's intention is to empower individuals who are committed, energetic and competent to become a part of this professional real estate industry with an ultimate goal of empowering job and wealth creation, at the same time thereby changing lives and making a positive contribution to the economy.

For the WMO members wanting to enrol but cannot afford the program costs can privately apply to WMO VP for partial or full subsidisation. All requests will be confidentially considered.

The admission to the courses is at the discretion of WMO and its implementation partner Choprop, who reserve the right to accept or reject any application without assigning any reason.

May Allah [SWT] grant him Jannatul Firdaus AAMEEN.

CONCLUSION

It has been a pleasure working with the members of the RMC and their support in all aspects is well appreciated.

The 2 main challenges faced by the Africa Chapter is enticing and convincing the youth to come on board and identify a sustainable legacy project for the Memon and Muslim community in this part of Africa.
