

Projects - 2015

**WMO International Ladies
Wing**

Projects for 2015

Global Projects

1. Memon Connections (Marriage Bureau Project)
2. Supporting Children with Special Needs
3. International Memon Trade Exhibition

Memon Connections

- During the AGM in South Africa, it was discovered that the most interest shown by the other chapters was for the MEMON MARRIAGE BUREAU as every country had appeals from parents looking for suitable marriage partners for their children and the committee was aware that the current MEMON CONNECTIONS website linked to the WMO website needed major updating with expert view that it was to be handled by a dedicated team who will be outsourced to manage the website in order to achieve the maximum results.

Memon Connections

We hope to achieve the following:

- More Cross border marriages
- Centralized Data base with password controlled limited access to ensure confidentiality of the Data
- Team of dedicated ladies from each chapter to make the connection
 - To protect applicants privacy- other chapter heads will only be able to view limited information.
 - System Search for a suitable match on entering criteria and parameters on the website
- Make our efforts united globally and make this project more accessible to different towns in different cities and identify more potential representatives.
- We kindly request the Management Committee to allocate funds from the central body for this project . An estimated cost is US2000 and an annual hosting cost will be approximately US200.

just the thought of making a child's life special feels like an extraordinary moment

Children with Special Needs Program

- Continuation from the past 2 years, but to focus on creating One Dedicated cause
- To get our children to raise money via Bake Sales, Money Boxes distributed in our neighborhoods thus instilling an awareness amongst our own children for them to be grateful and appreciate what they been blessed with by the Almighty.
- To get our children and all community members involved in more than raising money- but to participate in raising awareness and identifying specific needs of this special children.

International Memon Trade Exhibition

- This to be a Regular Feature at all AGM's in future and AGM host must also undertake to provide facilities for this
- Encourage global-networking of Memon Women
- Support Memon Ladies showcasing their crafts and helping them to get them internationally recognized.
- As a predominantly business community It seems only natural to showcase our talents and success at a Trade Exhibition.
- Promote the Memon Brand by means of continued efforts to update Memon Businesses Database.
- It is of utmost importance to have a system where Memon's prefer to support each other over any other community
